

Victoria Weidenbaum

I get energized by blue-sky ideation and data-driven product strategy. I thrive in collaboration balanced with creative heads-down time. I'm drawn to companies using AI to directly improve how people feel and move through their daily lives.

Staff Product Designer at Retool

Jun 2025 - December 2025 (7 months)

At Retool, I led an information architecture redesign of the core browsing experience, establishing personas, conducting discovery research across admins, builders, and end users, and partnering with PM and Engineering to shape team strategy across app organization, permissions, onboarding, and customization.

Lead Product Designer at Dropbox

Dec 2021 - Apr 2025 (3 years 5 months)

At Dropbox, I worked on Core Product for businesses and teams. As Product Design Area Lead, I led design for Team Space and redesigned the Admin Console, achieving a +7pp increase in Admin CSAT and reversing a multi-year decline. I shaped strategy across squads and mentored designers to elevate the quality of their craft.

Senior Product Designer at Instacart

Oct 2018 — Sep 2021 (3 years)

I collaborated across Shopper app org teams to design core experiences including Checkout, Help Center, Go Online, Leave at the door, Missing Customer and others. Help Center redesign project saved millions in support costs and enabled company-wide data gathering still used today.

Product Designer at FR8Star

Jul 2017 — Sep 2018 (1 year 3 months)

FR8Star was a marketplace connecting businesses with specialized carriers for oversize loads. I designed key features including the load board, quote requests, and shipment calculators.

Product Designer, Freelance

Mar 2015 — May 2017 (2 years 3 months)

Designed responsive websites and experiences for ecommerce, wedding tech, and biotech startups.
